

+ find subdomains

+ brute force each one to find critical files.

+ if you find a vulnerable on InstaGlobalpay.com
you will get 1 million dollars.

* The web application Hacker's Handbook. (Book)

* OWASP / Testing Guide (Book)

* Vickie le (Twitter)

* pentesterlab + portswigger (labs)

*

Where to learn?

Books

If you're starting, focus only on Web and mobile, and build from there (new areas like IoT, etc).

Web App Hacking

- The Web Application Hacker's Handbook
- Mastering Modern Web Penetration Testing: Learning the Ropes 101
- Web Hacking 101
- Breaking into information security

Mobile App Hacking

- The Mobile Application Hacker's Handbook
- Android Hacker's Handbook

Conferences

- Learn from other people
 - Why are they successful?
What are they doing?
What are you not doing that makes you unsuccessful?
- Steal their techniques
 - Replicate their steps, meet up at conferences, learn from them
